TECHNICAL DATASHEET

Name	COOKWARE
Reference	COK-WR5
Model	COOKWARE 4 PIECES
Pieces	4

Description: Cookware made up of 4 patented pieces designed exclusively for the Cooking Surface induction hob, in order to maximize its efficiency and optimize cooking work time that saves energy in the domestic sphere.

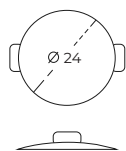

Specifications:

- All pans feature Xylan nonstick coating.
- The pot incorporate a type G invisible glass lid.
- Stainless steel lining.
- All the pieces have handles or handles covered with black antibacterial silicone.
- The use of the Cookware guarantees the highest degree of customer satisfaction in the use of the Cooking Surface system because it means cooking directly on the porcelain countertop of ABK STONE, being the exception, which allows cooking without the use of spacers.

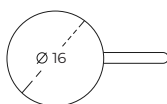

Sizes:

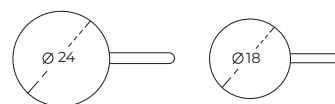

Stainless steel pot

Steel stainless sauce pan

Stainless steel pan

Details: All the pieces incorporate lifting points at their base that serve to raise each one 4 mm of its components with respect to the surface of the hob, in such a way that it protects and insulates heat residual to maximize the useful life of the cookware.
